Owen Hektner

omhektner@gmail.com | linkedin.com/in/owenhektner | ohektner.github.io | Phoenix, AZ

PROFESSIONAL SUMMARY

Associate Business Analyst focused on **AI implementation** at First American. Maps how processes actually run, gathers requirements from the people doing the work, and **builds AI and automation tools that remove manual steps**, then hands them off to non-technical users. Previously built and deployed credit operations automations used across **93 branch locations** at Titan Machinery.

CORE COMPETENCIES

AI Workflows | Process Improvement | Requirements Gathering | OCR Automation | Power Automate | Python & SQL

WORK EXPERIENCE

First American

Sep 2026 - Present

Associate Business Analyst - AI Implementation - Remote (Phoenix, AZ)

- **Built a repeatable AI workflow** that scans checks with OCR, compiles the weekly report, and reconciles it against expected amounts and check numbers, cutting the task from **~3 hours of hands-on work to ~30 minutes** of passive time
- Handed the workflow off to a **non-technical user** who now runs it on their own
- Lead process improvement for the team: gather requirements, map how each process runs today, and find where AI can remove manual steps

Titan Machinery

May 2026 - Aug 2026

Credit & Operations Intern - West Fargo, ND

- Built and deployed a **Python/Outlook automation** distributing collections worklists to branch managers across **93 locations**, cutting a 2-hour manual process to **under 5 minutes**
- Designed a **Power Query pipeline joining four ERP data sources** to surface credit line increase candidates with parameterized thresholds
- Automated credit updates with **Power Automate Desktop**: ratings across 400 accounts (**55% less time per account**, zero missed records) and limit adjustments on inactive accounts, removing a manual queue from monthly close
- Designed a batch SQL update process with the BI and ERP teams to close **7,500 accounts** in e-Emphasys (ERP)
- Primary credit intake contact for 93+ locations; wrote the training guide for a company-wide Billtrust rollout

Cork & Barrel Liquors

Jun 2024 - Aug 2025

Store Associate - Jamestown, ND - part-time

- Built a **Power BI sales dashboard from 300+ POS CSV reports** that informed the owner's purchasing and inventory decisions

PROJECTS

Touch Dirt AZ

touchdirtaz.com

Claude Code | Next.js | TypeScript | NWS API | three.js | Playwright | Vercel

Designed, built and run a **live hiking-conditions site**: National Weather Service, HeatRisk and city heat-closure data refreshed every 15 minutes give each of **43 hikes** a heat-risk level and safe start window. Wrote **Claude Code agent skills** that research each hike and cite every fact. Built the brand, newsletter and socials (**84K video views** in the first month).

NBA Player Efficiency Analysis Dashboard

Senior Capstone

Pulled stats with Python and nba_api, cleaned them in Power Query, and modeled efficiency metrics in an interactive Power BI tool.

EDUCATION & CERTIFICATIONS

B.A. Information Technology & B.A. Business Administration (Management) - University of Jamestown — 2024 - 2026

GPA 3.86 | Magna Cum Laude | IT College Fellow 2025 | NCAA Division II basketball team captain | NSIC All-Academic | Myles Brand Award

Business Analytics coursework - Minnesota State University Moorhead — 2021 - 2024

Certifications - Generative AI for Continuous Improvement (LinkedIn) | IT Fundamentals (IBM) — 2026

SKILLS

AI & Automation: Generative AI, LLM workflows, prompt design, OCR, Claude Code, Power Automate Desktop, Python (pandas, Outlook)

Data & Systems: SQL, Power Query, Power BI (DAX), Excel, e-Emphasys (ERP), Billtrust, Microsoft 365

AI-assisted development: Next.js, TypeScript, Vercel, GitHub Actions, Playwright (built with Claude Code)
